

VANDANA

Full Stack Developer

Panchkula, India | +91-9781910246 | vandanakashyap674@gmail.com | vandana-portfolio-azure.vercel.app | github.com/Vandanarajput | linkedin.com/in/vandana-rajput

SUMMARY

Full Stack Developer with professional experience building production-level applications using React, Electron, JavaScript/TypeScript, and backend technologies, supported by internship experience in Full Stack Java development and mobile application development. Currently building MoBrowser, an Electron-based developer browser with multi-database connectivity and secure credential management, at Techsapphire Solutions. Strong frontend and full-stack engineering foundation with hands-on experience solving practical product and business problems.

EXPERIENCE

Associate Software Developer / Full Stack Developer Aug 2025 – Present
Techsapphire Solutions Pvt. Ltd.

- Architecting and developing MoBrowser, an Electron-based developer browser, building desktop features with React, Electron, and Node.js.
- Built a credential vault secured with AES-256 encryption over isolated Electron IPC for secure credential management.
- Built native database connectors for MySQL, PostgreSQL, SQL Server, SQLite, and MongoDB.
- Integrated GitHub sync, thermal printing support, and a background Windows scheduler service into the product.
- Reduced bundle size by ~22% by replacing a third-party theming library with React Context API.
- Cut the open bug backlog by ~60% by introducing Jest and React Testing Library coverage, improving stability and performance.
- Contributing developer on a cross-platform Point of Sale application shipping to Android and Windows.

Full Stack Developer — Intern May 2025 – Jul 2025 · 3 mo
Techsapphire Solutions Pvt. Ltd.

- Built desktop application features using React.js, Electron.js, JavaScript/TypeScript, Redux, and Tailwind CSS.
- Contributed to early-stage development of the cross-platform POS application for Android and Windows.
- Worked on database integrations and core application workflows ahead of conversion to a full-time role.

Full Stack Java Developer — Intern Jan 2025 – Jul 2025 · 6 mo
PiSoft Informatics Pvt. Ltd.

- Built end-to-end backend applications using Core Java, Spring Boot, Hibernate, and MySQL.
- Designed REST APIs and relational data models for application modules.
- Developed and tested Java-based application features, maintaining 85%+ unit test coverage on core modules.

Mobile App Development & Testing — Intern Oct 2024 – Dec 2024 · 3 mo
Lending Buddha

- Supported mobile application development, testing, and debugging across the app development lifecycle.
- Gained hands-on understanding of the mobile app delivery lifecycle, providing a foundation for later Android-side POS work at Techsapphire.

PROJECTS

ShopSphere — MERN E-Commerce Platform — *React · Redux Toolkit · Node.js · Express · MongoDB · JWT · Cloudinary*
Production-style e-commerce app covering the full customer journey (browse → cart → checkout → order tracking) plus a complete admin panel. Atomic stock decrement prevents overselling; cart price snapshots lock pricing between add-to-cart and checkout; MongoDB text indexes power product search. JWT auth with role-based access (customer / admin / superAdmin) and Cloudinary CDN for product images. **Live:** [shopsphere-web.vercel.app](#) · **Code:** [github.com/Vandanarajput/ShopSphere-Ecommerce-website](#)

Campus Placement Management System — *Spring Boot · Hibernate · Thymeleaf · MySQL*
Placement lifecycle web app covering student profiles, job listings, application tracking, and an admin panel; built with Spring Boot, Hibernate ORM, and a modular MVC structure.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript, Core Java, HTML5, CSS3
- Frameworks:** React.js, Redux, Electron.js, Node.js, Tailwind CSS, Spring Boot, Hibernate, Thymeleaf, jQuery
- Databases:** MySQL, PostgreSQL, SQL Server, SQLite, MongoDB
- Tools:** Git, GitHub, VS Code, IntelliJ, Eclipse, Postman, Jest, React Testing Library, Vite
- Concepts:** OOP, MVC, REST APIs, Data Structures & Algorithms

EDUCATION

MCA — Mata Gujri College, Fatehgarh Sahib CGPA 9.0 / 10 2023 – 2025

BCA — Punjabi University, Patiala 85% 2020 – 2023

CERTIFICATIONS

Full Stack Java — Internship, PiSoft Informatics Pvt. Ltd. Jul 2025

Mobile App Development & Testing, Lending Buddha Dec 2024

Java Programming, Udemy (42 hrs) Mar 2025
