

VANDANA

Full Stack Developer

vandanakashyap674@gmail.com · +91-9781910246 · Panchkula, India · github.com/Vandanarajput · linkedin.com/in/vandana-rajput

SUMMARY

Full Stack Developer with 1+ year shipping React + Electron frontends and 6-month Java + Spring Boot foundation. Comfortable end-to-end — React, Redux, Tailwind on the front; Spring Boot, REST APIs, MySQL on the back. Currently architecting **MoBrowser** at Techsapphire — an Electron developer browser with multi-database connectors and AES-256 security.

EXPERIENCE

Full Stack Developer · Techsapphire Solutions Pvt. Ltd. Jun 2025 — Present

- Architecting **MoBrowser** — Electron desktop browser with native connectors for MySQL, PostgreSQL, SQL Server, SQLite, and MongoDB.
- Built AES-256 credential vault over isolated Electron IPC; integrated GitHub sync, thermal printing, and a background Windows scheduler service.
- Lead developer on a cross-platform Point of Sale application shipping to Android and Windows desktop.
- Cut bundle size **~22%** by replacing third-party theme with React Context API; reduced bug backlog **~60%** using Jest + RTL.

Full Stack Java Developer · Intern · Pisoft Informatics Pvt. Ltd. Jan 2025 — Jul 2025 · 6 mo

- Built end-to-end applications with Core Java, Spring Boot, Hibernate, and MySQL — REST API design and relational data modeling.
- Developed frontends with Thymeleaf + jQuery; maintained **85%+** unit test coverage on core modules.

Mobile App Development & Testing · Intern · Lending Buddha Oct 2024 — Dec 2024 · 3 mo

- Hands-on mobile delivery lifecycle in Noida: app design, development, testing, and debugging — foundation for the Android side of the POS app at Techsapphire.

PROJECTS

MoBrowser — Enterprise Developer Browser · Electron · Node.js · 5 databases · AES-256 · Jest

Production Electron browser with native connectors for MySQL, PostgreSQL, SQL Server, SQLite, MongoDB. OS-keychain credential vault, GitHub integration, thermal printing, Windows scheduler service. Modular architecture with context-isolated IPC and auto-update.

E-Commerce Web Application · Java · Spring Boot · Thymeleaf · MySQL · MVC · REST

Full-stack platform with user authentication, product catalog, cart, and order management. Spring MVC backend with RESTful APIs and MySQL persistence; Thymeleaf views.

Campus Placement Management · Spring Boot · Hibernate · Thymeleaf · MySQL

Placement lifecycle web app: student profiles, job listings, application tracking, and admin panel. Spring Boot with Hibernate ORM and modular MVC structure.

TECHNICAL SKILLS

- Languages** TypeScript, JavaScript (ES6+), Core Java, C++, HTML5, CSS3
- Frameworks** React.js, Redux, Electron.js, Spring Boot, Hibernate, Thymeleaf, jQuery, Tailwind
- Databases** MySQL, PostgreSQL, SQLite, MongoDB
- Tools** Git, GitHub, IntelliJ, Eclipse, VS Code, Postman, Jest + RTL, Vite
- Concepts** OOP, MVC, REST APIs, Data Structures & Algorithms

EDUCATION

MCA — Mata Gujri College, Fatehgarh Sahib 2023 — 2025
CGPA 9.0 / 10

BCA — Punjabi University, Patiala 2020 — 2023
85%
